## EASTERN CORN CROP

REPORTED TO BE BETTER THAN WAS EXPECTED.

Michigan, Wisconsin Minnesota and Dakota Have a Favorable Season—Kansas and Nebraska Show a Shortage.

CHICAGO, October 22.—The *Farmer's Review* will say this week that a careful examination of estimates furnished by correspondents reveals the fact that the corn crop is turning out somewhat better than was expected.

The crop in Michigan and Wisconsin is larger than last year and in Minnesota and Dakota it is almost as large. Other States, especially Kansas and Nebraska, show a considerable shortage. In several counties in Kansas and Nebraska, corn is nearly a total failure.

The *Review* gives an estimate on the production of Illinois, Indiana, Ohio, Kentucky, Missouri, Kansas, Wisconsin, Michigan, Iowa, Nebraska, Minnesota and Dakota, and says that, after deducting from the gross product a large percentage of unmerchantable corn, its estimate of the total market, in the States named, is 825,925,253 bushels.

The condition of the crop in the remaining States, not covered by the report, is estimated at about 85 per cent of the average.

## CONDENSED TELEGRAMS.

During a recent journey in France the Baroness Rothschild was robbed of jewelry valued at \$12,000.

Great excitement prevails at Florence, Ala., over the discovery of natural gas seven miles from the city.

Charles Warren, a patient at the Napa State Insane Asylum, committed suicide yesterday afternoon by hanging.

The American Humane Society began its meeting at Nashville, Tenn., yesterday. The annual reports showed good progress.

Information was received at Salt Lake yesterday that four miners were killed at Collinston last Thursday by the premature explosion of a powder blast.

The tramcar employees who struck Sunday at Vienna will resume work. The Municipal Council compels the tramcar company to revise its rules.

The condition of Grand Duke Nicholas, uncle of the Czar, who was seized with a sudden mania during the recent army maneuvers, has become critical.

Shortly before the race for the Cambridgehire stakes at Newmarket yesterday, the police raided a number of betting clubs in Liverpool and arrested 300 persons among whom were some prominent citizens.

A crowd of farmer laborers at Schull besieged the board of guardians at Dublin yesterday, demanding work or bread, on account of the failure of the potato crop. The board replied that the law does not permit of outdoor relief.

## THE MARKETS.

NEW YORK, October 22.—The stock market today was somewhat of a surprise on account of the ease with which prices were lifted on light purchases. Great liquidation in Wall street has driven stocks from the brokers' offices and into the hands of strong parties, making a scarcity of long stocks in the street. Sugar refineries were especially weak throughout the day and strength in the general list was not sufficient to hold up. In the last hour a general reaction from the best prices of the day was induced by realizations upon advances. Final changes, however, were almost invariably advances for small fractions, but sugar is off 1/4.

HOFF, OF TUCSON!

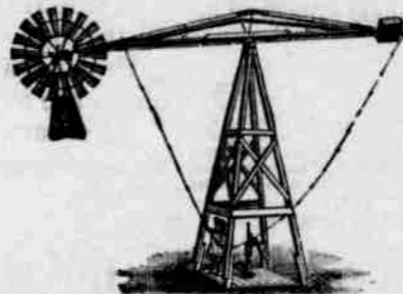

BELOW IS A CUT OF THE TERRITORIAL RENOWNED CHARLES F. HOFF, COMMONLY known as HOFF, OF TUCSON. Mr. Hoff is Manufacturer's Agent and Merchandise Broker, with headquarters at Tucson. He is the gentleman that has agitated the windmill question so much, the results of which are being seen all over the Territory, and which is turning the barren deserts into blooming gardens.

THE AERMOTOR WINDMILL

Shows an increase of 35 per cent in power over all other mills. The wheel is entirely of STEEL. It is sold with or without TILTING TOWERS. FIXED TOWERS are the cheapest, but the TILTING TOWER is the most convenient; same brings the wheel down to the ground for oiling.

The AERMOTOR comes from 4 to 16-inch strokes. Three revolutions of the wheel to one stroke of the pump allows it to start up easier under a heavy load, and runs when other wheels are idle, not being "quite" sufficient wind to run other mills. The wheel itself being so LIGHT, runs so much faster when started, and thus gains more in speed than it loses in the stroke. But these are only a few reasons why the AERMOTOR is superior in Power, Constancy and Durability to all other wind-motors. However, so far as the power of the wheel is concerned, the greatest

gain in power is due to the structure of the wheel itself. To specify ALL the reasons for this would be too tedious. Suffice it to say that this claim is based on numerous dynamometric tests on more than sixty different wheels, and that the AERMOTOR has been submitted to long and applied practical tests, in conjunction with the leading wind-motors of the country, and it has been proven by actual trial and measurement that the 8-foot Steel AERMOTOR will pump more water in the same time, in any kind of wind, and will do the same work in lighter wind than the best of 10-foot wooden wheels made. The AERMOTOR WIND ENGINE, without exaggeration, is the greatest invention of the nineteenth century, and every home in Arizona should have one, as a home without a windmill is like a library without books, a home without a soul.

CHARLES F. HOFF, Agent, Tucson, Arizona.
